EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following amendment was proposed by the examiner to put the claims in condition for allowance. Authorization for this examiner's amendment was given in a telephone interview with Kenneth Fields (#52,430) on April 19, 2006.

The application has been amended as follows:

- (A) In claim 1, line 2, "two" should replace "one".
- (B) In claim 1, line 8, "two" should replace "one".

EXAMINER'S COMMENT

2. The previous objections to the specification and claims, as well as the previous rejections are withdrawn due to the amendment filed on March 20, 2006.

3. Note that "to judge whether access is allowed" as used in claim 1 is interpreted in view of the specification to mean "to judge whether access is authorized". It does not mean "to judge whether access can physically occur", i.e., whether the card is physically connected or whether the electrical connection has been compromised, etc.

In other words, the judging unit determines whether the system *may* access a given card (not whether it *can* access a given card, given the proper authorization).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185. The examiner is generally available between 7:00 am and 7:30 pm, EST, Monday through Wednesday, and between 5:30 am and 4:00 pm on Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Reginald Bragdon, can be reached at (571) 272-4204. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
